

PLARIUM'S 'VIKINGS: WAR OF CLANS' LAUNCHES IN THE AMAZON APPSTORE

TEL AVIV, ISRAEL – December 15, 2015 -- [Plarium](#), one of the world's fastest growing developers of social, mobile and web-based games with 150 million users, today announced it has launched its multiplayer online strategy game *Vikings: War of Clans* in the Amazon App Store. Amazon will feature *Vikings* and offer a special discount on all in-app purchases for players who download the game from the Amazon Appstore. The promotion will begin December 17th and last through January 14th.

Vikings: War of Clans is a fierce strategy title, inspired by the historical era of Vikings from 750 to 1050 AD, that takes players to a ruthless world governed by freedom, power, fear and violence, where players must lead brave warriors into battle, conquer the world and prove their mighty rule against other clans from all over the world. The game originally launched in August 2015 and has since gained significant momentum, reaching 1 million Monthly Active Users in less than 4 months.

Amazon is the largest internet-based retailer in the United States, and in 2015, surpassed Walmart as the most valuable retailer in the U.S. in regards to market capitalization.

"Amazon is an incredible platform that will help bring *Vikings* to a whole new audience of engaged players," said Leonard Frankel, Head of Business Development at Plarium. "We are excited to see Amazon share our faith in the potential for Vikings on their platform, and are working closely together to bring Vikings to its fullest potential."

Vikings: War of Clans is translated and voiced in English, French, Spanish, Russian, Italian and German and can be downloaded on the Amazon App Store at this link: <http://amzn.to/1NZ0v36>.

About Plarium:
